

NEW BRAND NEW PRODUCT HYBRID SICKLE WITH STRONGER & REINFORCED ALUMINIUM HOLDER SUPPORT

Built for performance and endurance, the **JBS Hybrid Sickle** features a precision-engineered blade and a stronger, reinforced Aluminium Holder Support, for superior strength.

The **Hybrid Sickle** is manufactured using the high quality spring steel which goes through the traditional Forging and Heating Processes. When clamped securely to the harvesting pole, it provides stable, controlled cutting – ideal for efficient oil palm fruit harvesting.
